What is the Hybrid Cloud Assessment?

Groupware Technology’s service offering, provided by Cloud Physics. Our Hybrid Cloud Assessment is the fastest way to start planning your cloud migration strategy. Within minutes of activation, CloudPhysics will map your entire VMware infrastructure against current pricing and configuration options from Amazon AWS and Microsoft Azure.

CloudPhysics has built customized analytics and cost calculators to give you the most advanced tools available as you plan and design your hybrid cloud architecture and migration strategy.

Leverage the Hybrid Cloud Assessment for the following use cases:

- **Compare cloud costs**
  CloudPhysics will help you map your existing environment against the latest pricing and configuration options from Amazon AWS and Microsoft Azure.

- **Right-size your virtual machines**
  Use CloudPhysics to right-size the CPU, memory, and storage footprint of your virtual machines before moving to the cloud. Don't pay for what you don't need!

- **Optimize the workloads that remain on-premises**
  CloudPhysics can help ensure the workloads that remain on-premises are running on the most cost-effective infrastructure possible.

How Does It Work?

- **Download and activate the CloudPhysics virtual appliance**
  This process takes less than 10 minutes.

- **CloudPhysics will collect and analyze performance and configuration metadata on the entire virtual infrastructure.**

- **Results are presented in easy-to-understand dashboards and analytics.**

- **Review results with CloudPhysics and your technology partner to plan your cloud migration strategy**

- **Benchmarking key parameters against the CloudPhysics community, VMware best practices and the global Knowledge Base**

Key Benefits

- The fastest way to start planning cloud migration strategy

- Customized analytics and cost calculators offering the most advanced tools available

- Minutes to activation and results

*CloudPhysics can help ensure the workloads that remain on-premises are running on the most cost-effective infrastructure possible.*
Why CloudPhysics?

• **15 Minutes to insights**
  No Software to install, no agents to deploy, no upgrades, no patches.

• **Deep VMware expertise**
  Founded by VMware engineers who developed core ESX feature sets and APIs.

• **Highest resolution performance data**
  We collect performance data at 20-second intervals for highest fidelity insights.

• **Data science delivered to you**
  Our data scientists perform the analysis and present actionable insights through intuitive dashboards.
